

During the past 20 years, Cochrane has helped to transform the way health decisions are made. Cochrane produces reviews that summarize the best available evidence generated through research to inform decisions about health. Switzerland now has access to the Cochrane Library FREE thanks to funding from SAMS and the Federal Office of Public Health plus other supporting institutions.

Navigating the *Cochrane Library*

There are several options to browse and search the Cochrane Library. You can browse by topic or by Cochrane Review Group from the homepage, conduct a simple search or use the Advanced Search link to search by MeSH terms or to edit and combine searches.

Type a search term directly into the box, or select one of the advanced options to conduct a search, access saved searches, or search by MeSH

The Cochrane Library offers additional resources including CENTRAL, DARE, CMR and HTA

Cochrane Reviews are systematic reviews of primary research in human health care and health policy, and are internationally recognized as the highest standard in evidence-based health care. They investigate the effects of interventions for prevention, treatment, and rehabilitation. They can also assess the accuracy of a diagnostic test for a given condition in a specific patient group and setting.

Using The Cochrane Library

Our top ten tips for getting the most out of the Cochrane Library

1. Browse on the go

The Cochrane Library website is responsive and will adapt to any device - desktop, tablet, or mobile - to give you the optimal reading experience.

2. Read selected content in your language

The language switcher located at the top of abstracts and plain language summaries allows you to easily toggle between different languages where available.

3. Share a search

Send a link to another user to let them run and view results of your search. Users who receive your search can send a shared link back adding their own comments and edits, or save the search to their own Strategy Library.

4. Access the Trials database from the homepage

Just click the "Trials" link in the top navigation bar for quick access to CENTRAL - a concentrated source of references of randomised controlled trials.

5. Download figures into PowerPoint

In the enhanced article HTML format, the image viewer tool allows you to download images and figures from the Cochrane review into PowerPoint.

6. See the latest Cochrane Reviews at a glance

Check our "Highlighted Reviews" section on the homepage to see a selection of the most recently published Cochrane Reviews.

7. Easy access to references

Using the enhanced HTML, you can navigate to reference detail without interrupting the flow of the review. Users can also link directly to references in various abstracting and indexing services, such as PubMed.

8. Listen to a summary of Cochrane research

Some of the reviews are available in a podcast format which enables you to listen to the author talking about the research and conclusions.

9. Get e-mail alerts for your saved searches

You can name and save your searches using our search manager feature. Once your searches are saved, simply tick the "Alerts" box in your Strategy Library to be alerted when new Cochrane reviews matching your search are added to the Cochrane Library.

10. Additional resources at your fingertips

Click on "More Resources" in the top navigation bar for easy access to Cochrane Journal Club, Podcasts of Cochrane Reviews, and Cochrane Clinical Answers.
